Separate paging is given to this Part in order that it may be filed as a separate compilation

PART III—SECTION 2

Notifications and Notices issued by the Patent Office relating to Patents and Designs

THE PATENT OFFICE

Patents and Designs

Calcutta, the 15th October 1960

Application for Patents

The dates shown in crescent brackets are the dates claimed under Section 78A of the Act.

26th September 1960

73510. Shell Internationale Research Maatschappij N.V. Stabilized polymer compositions, polynuclear polyphenols for use therein and process for their preparation.
73511. Shell Internationale Research Maatschappij N.V. Polymerization process.
73512. Gresham & Craven Limited. Improvements relating to railway vehicle vacuum braking apparatus. (9th October 1959).
73513. British Titan Products Company Limited. Production of titanium oxide and aluminium oxide. (4th March 1958). [Divisional date 26th February 1959].
73514. Associated Electrical Industries Limited. Improvements in and relating to control apparatus. (30th September 1959).
73515. National Research Development Corporation. Improvements relating to the production of hydrocarbons and the like. (29th September 1959).
73516. Lepetit S.p.A. New therapeutic agent.
73517. Ciba Limited. Process for the manufacture of new acylamino-compounds.
73518. Ciba Limited. Process for the manufacture of new pentacyclic compounds.
73519. Montecatini Societa Generale Per L'Industria Mineraria E Chimica. Process for preparing an unsaturated copolymer.
73520. Zavody V. I. Lenina, Plzen, narodni podnik. Transformer with a cooling and insulating liquid and conservator.
73521. Braunschweigische Maschinenbauanstalt. Apparatus relating to apparatus for use in the extraction of vegetable materials.
- 1st October 1960
73522. V. D. Desai. An improved colloid mill.
73523. S. J. Goel. Vermiculite insulating fire bricks, blocks and vermiculite blocks for cold and sound insulation.
73524. British Schering Limited. Therapeutically useful unsaturated fatty acid compounds. (2nd October 1959).
73525. British Schering Limited. Hydrazine derivatives. (2nd October 1959).
73526. Abbott Laboratories. Improvements in substituted piperazines.
73527. Imperial Chemical Industries Limited. Improvements in or relating to electric detonators. (2nd October 1959).
73528. Hovercraft Development Limited. Improvements in or relating to vehicles for travelling over land and/or water. (2nd October 1959).
73529. The English Electric Company Limited. Improvements in and relating to electric classifying systems for sheet or like continuous material. (1st October 1959).
73530. I. R. C. Limited. Improvements in and relating to nibs of ball point pens and material suitable therefor. (2nd October 1959).
73531. May & Baker Limited. Compositions containing new aminophenyl ethers. (24th June 1958). [Divisional date 24th June 1959].
73532. L. Holmberg. Method of and apparatus for making hollow articles. (1st October 1959).
73533. Gloster Aircraft Company Limited. Improvements in or relating to forage harvesting machines. (2nd October 1959).
73534. F. G. Konstandt. Panel structure for doors, furniture and the like and process and machine for the production thereof.
73535. Montecatini Societa Generale Per L'Industria Mineraria E Chimica. Process of preparation and vulcanization of articles consisting of mixes on the basis of one or more olefin polymers with an olefin copolymer.
73536. Ciba Limited. Process for the manufacture of new hydroxy-phenyl compounds.
73537. Ciba Limited. Process for the manufacture of a new polysaccharide.
73538. Ciba Limited. Process for the manufacture of new 2-pyridyl-oxazoles.
73539. Ciba Limited. Process for the manufacture of new sulphonamides.
73540. Maschinenfabrik Augsburg-Nurnberg A.G. Pre-combustion chamber diesel engine.
73541. E. K. Cole Limited. Improvements in or relating to amplifier circuit arrangements. (15th October 1959).

73542. Preformed Line Products Company. Positioning device.
73543. Dr. C. Otto & Comp. G.m.b.H. A device for treating bulk material with hot gases.
73544. H. D. Hudson Manufacturing Company. Hydraulic spray pump.
73545. Union Carbide Corporation. The treatment of textile fabrics with 1, 1, 3-tris-(2, 3-epoxypropoxy) butane.
73546. Dr. R. Gallone. Compounds for the treatment of vasculopathies.
73547. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Process for the manufacturing of derivatives of 2, 3-dimethoxy-5-methyl-benzo-hydroquinone (1, 4).
73548. G. E. George, C. P. D'Marco and M. P. D'Marco. Improvements relating to dumping barges.
73549. The Permutit Company Limited. Improvements in or relating to ion-exchange process. (12th October 1959).
73550. Charles E. Frosst & Co. Serine derivatives. (11th December 1959).
73551. Societe Anonyme Francaise D'Etudes, De Gestion & D'Entreprises. Suspension railway.
73552. Ciba Limited. Copper phthalocyanine pigments crystallization-and flocculation-resistant in the α -form and process for their manufacture.
- 3rd October 1960
73553. V. G. Pendse. Extraction of coconut butter.
73554. Fuller Company. Conveying apparatus. [Divisional date 11th April 1959].
73555. Fuller Company. Distributing apparatus. [Divisional date 11th April 1959].
73556. Ford Motor Company of Canada, Limited. Improvements in or relating to automatic clutch release devices for tractors. (2nd October 1959).
73557. Esso Research and Engineering Company. Method for growing crops in semi-arid regions.
73558. United States Steel Corporation. Sectional hot top.
73559. Rohm & Haas Company. Mixed acrylic methacrylic anhydrides and acids.
73560. Chicopee Manufacturing Corporation. Textile fabrics and methods of making the same.
73561. Siemens-Schuckertwerke A.G. Apparatus for use in applying laminar electrodes to semi-conductor members.
73562. H. J. Zimmer. Process for the thermal-catalytic conversion of gaseous or liquid hydrocarbons. (30th August 1960).
73563. National Distillers and Chemical Corporation. Method and apparatus for improving the optical properties of thermoplastic films.
73564. Sandoz Ltd. Improvements in or relating to organic compounds. (5th October 1959). [Addition to No. 73232].
73565. Acrow (Engineers) Limited. Improvements in and relating to hydraulic props.
73566. Acrow (Engineers) Limited. Improvements in and relating to hydraulic props.
73567. Rosedale Associated Manufacturers Limited. Improvements in or relating to the production of lace-like webs of thermoplastic material.
73568. The British Petroleum Company Limited. Improvements relating to the reactivation of catalysts. (13th October 1959).
73569. The British Petroleum Company Limited. Method of detecting liquids suspended in other liquids. (26th October 1959).
73570. American Radiator & Standard Sanitary Corporation. Improvements in or relating to switch and actuator therefor.
73571. National Research Development Corporation. Improvements in or relating to derivatives of polyhydric alcohols. [Divisional date 22nd April 1959].
73572. Sandoz Ltd. Reactive dycstuffs.
73573. Egvesult Gyogyszer-Es Tapszergyar. Process for the preparation of the N-acyl-derivatives of nortropane-3 α -ol or nor-tropane 3 β -ol and their esters.
73574. Farbwerke Hoechst Aktiengesellschaft vormals Meister Lucius & Bruning. Water-soluble azodyestuffs and process for their manufacture.
73575. Montecatini Societa Generale Per L'Industria Mineraria E Chimica. Phosphoric esters of tertiary alcohols containing an acetylenic function and having pesticidal activity.
73576. Council of Scientific and Industrial Research. A simple specific gravity indicator for use in heavy medium coal washing.
- 5th October 1960
73577. M. A. Azeez. Improved mechanism in pad lock.
73578. Deutsche Edelstahlwerke Aktiengesellschaft. Improvements in or relating to furnace.
73579. British Insulated Callender's Construction Company Limited. Cross arms for supporting overhead electric lines. (7th October 1959). [Addition to No. 53031].
73580. British Insulated Callender's Construction Company Limited, and British Insulated Callender's Cables Limited. Improvements in or relating to electric insulators. (7th October 1959). [Addition to No. 62068].
73581. Minnesota Mining and Manufacturing Company. Particulate coated sheet material.
73582. The British Oxygen Company Limited. Filter unit. (7th October 1959).
73583. N. V. Philips Gloeilampenfabrieken. Improvements in or relating to methods of manufacturing magnetically anisotropic bodies.
73584. N. V. Philips Gloeilampenfabrieken. Improvements in or relating to methods of soldering a connecting wire to end surface of a capacitor roll and capacitor rolls thus provided with a connecting wire.
73585. Molins Machine Company Limited. Improvements in work-piece detectors. (7th October 1959).
73586. Acrow (Engineers) Limited. Improvements in and relating to hydraulic props.
73587. Acrow (Engineers) Limited. Improvements in and relating to hydraulic props.
73588. The Permutit Company Limited, and The Consolidated Gold Fields of South Africa, Limited. Improvements in or relating to the recovery of metals by ion-exchange. (12th October 1959).
73589. N. V. Onderzoekingsinstituut Research. Mixer without movable parts for mixing liquids, mixing elements and pressing or casting moulds for manufacturing said elements.
73590. Griffin Wheel Company. Method of producing rolled metal articles.
73591. Badische Anilin- & Soda-Fabrik Aktiengesellschaft. Pigmented systems.
73592. Joh. Jacob Rietter & Cie Aktiengesellschaft. Pneumatic cleaning system for ring spinning frames.

Applications Accepted

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of this Gazette of India give notice to the Patent Office in the prescribed form No. 6 of the Indian Patents and Designs Rules, 1933 of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Government of India Book Depot, 8, Hastings Street, Calcutta in due course. The price of each specification is Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of specifications as shown in the following list.

If required typed copies, of the specification together with copies of drawings, if any, can be supplied by the Patent Office on payment of the necessary charges which may be ascertained on application to the office.

The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

66203. K. Tanaka. An operating system for a fluorescent lamp. Accepted on 22nd September 1960.

Comprising a main supply circuit including a source of voltage and a stabilizing impedance, each of the filaments being connected with a heating circuit comprising of heating voltage and a heating circuit impedance, for heating corresponding filament.

36298. Council of Scientific and Industrial Research. A new process for the manufacture of latex-cement for leather. Accepted on 3rd October 1960.

Consisting of a mixture of natural rubber latex, casein, ammonia, formaldehyde and naphthalene leather browns.

6315. C. N. Rao. Process of extraction of gold found in the combined state and the gold so obtained. Accepted on 5th October 1960.

Gold bearing mineral in finely powdered form is heated with KNO_3 and borax to red heat the material cooled, further powdered and converted into a paste with H_2O and Hg to form an amalgam, the latter is heated with ammonium chloride and borax to red heat and metallic gold is separated.

6327. Dracone Developments Limited. Improvements in or relating to flexible barges and reels for stowing the same. Accepted on 5th October 1960.

In combination, a barge in the form of a totally enclosed, unsupported, flexible envelope which is collapsed when empty and a reel for winding the envelope thereon during or after emptying.

428. Parks-Cramer Company. Valve arrangements. Accepted on 3rd October 1960.

Comprising in an opening in an enclosure, a shutter forming a valve which is adapted to pivot about a central axis, the shutter being sealed at its two faces with two circular plates provided with peripheral seal and the enclosure including two fixed circular plates co-operating with the seal.

082. J. R. Geigy A.-G. N-substituted azepines and dihydroazepines and process for their preparation Accepted on 19th September 1960.

Reacting functional derivative of 10.11-dihydro-5-dibenzo-azepine-5-carboxylic acids with non-disubstituted ethylene diamine.

111. The English Electric Company Limited. Improvements in or relating to electrical indicating instruments. (25th March 1958). Accepted on 21st September 1960.

Moving iron type characterized by an adjustable additional iron which extends over an arc of movement of the moving iron.

135. J. R. Geigy A.-G. Process for the stabilisation of sensitive substances. Accepted on 23rd September 1960.

Incorporating a 5.6-arylo-3-hydroxy-1, 2, 3, 4-tetrahydropyridine compound.

38. J. R. Chhabra. A device for use with internal combustion engines for the supply of heated combustion air and heated fuel to the carburettor. Accepted on 23rd September 1960.

Wherein an intermediate chamber is provided to receive air in heating unit and mix with steam or water vapour is provided within it a control flap valve.

78. Parke, Davis & Company. Pyrrolidine compounds & methods for producing the same. (2nd April 1958). Accepted on 26th September 1960.

Reacting 3-pyrrolidone compound with a reactive phenylmetallic compound.

67185. W. S. Schneider. Dispensing container. (7th October 1958). Accepted on 26th September 1960.

Wherein the opposing marginal portions of the tube at each end are sealed together and disposed substantially in planes at an angle of more than 45° relative to each other.

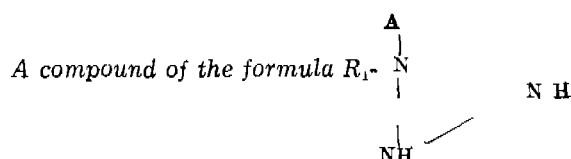

67199. J. R. Geigy A.-G. Isoindoline derivatives. Accepted on 1st October 1960.

Treating 3-chloro-3-(3'-chlorosulphonyl-4'-chlorophenyl)-phthalide with ammonia.

67233. Cyklus Limited. Improvements in or relating to preparation of soluble food concentrates. (28th January 1959). Accepted on 1st October 1960.

Mixing watery extract of animal or vegetable protein with acid hydrolysis product thereof and drying the product.

67249. J. R. Geigy A.-G. New amphoteric 2-imino-1, 3-di-N-heterocycles, a process for their production and a composition for the cleansing and protection of organic materials against micro-organisms containing them. Accepted on 3rd October 1960.

wherein R_1 stands for a lipophilic hydrocarbon radical and A stands for a divalent aliphatic or cyclo-aliphatic radical is reacted with a halogen compound introducing a carboxy-alkyl radical (2-4C atoms).

67258. C. E. Fulford Limited. Improvements relating to the recovery of glycosides from senna. (11th April 1958). Accepted on 3rd October 1960.

Forming and precipitating aluminium hydroxide in liquid extract of senna.

67313. Dr. J. V. S. Ramanjaneyulu. Improvements in or relating to the method of washing precipitates free from water-soluble impurities. Accepted on 3rd October 1960.

Treating with water containing surface active substance.

67332. The Wellcome Foundation Limited. Manufacture of amino derivatives of cyclopropane. Accepted on 5th October 1960.

Reducing an amide with lithium-aluminium hydride.

67339. Merck & Co., Inc. Derivatives of dibenzo [a,e] cycloheptatrienes. Accepted on 22nd September 1960.

Dehydrating 5-(3-dialkylaminopropyl)-5-hydroxy dibenzo (a, e) cycloheptatriene.

67436. The Cuno Engineering Corporation. Filter cartridge and method of making same. Accepted on 1st October 1960.

Wherein fibrous filtering materials are independently applied and secured between adjacent criss cross wrappings of strand materials forming the tubular body.

67455. Merck & Co., Inc. A process for the preparation of trihalomethyl-sulfamyl-1, 2, 4-benzothiadiazine-1, 1-dioxides. Accepted on 3rd October 1960.

A trihalomethyl-disulphamylaniline having at least one sulphamyl substituent in O-position to the amino group is reacted with an organic acid, and the product is heated.

67668. Linotype S.p.A. Device for turning over typographic lines composed by a line-composing machine. Accepted on 5th October 1960.

Comprising in combination a thrust member rigid with a point of the founding pot for the lead for the lines of a square lever pivoted around a fixed point of the frame of the machine.

67861. Hercules Power Company. Improvements in or relating to a process of preparing carboxyalkyl cellulose ethers. Accepted on 5th October 1960.

Cellulose, free alkali, water and a carboxyalkyl etherifying agent are agitated in a diluent chosen from n-propyl, butyl-and amyl alcohols, dioxane and acetone in a specified ratio of water to cellulose.

67868. Allen & Hanburys Limited. 1-alkyl-4-amino-quinaldium salts. (19th June 1958). Accepted on 1st October 1960.

One molecular proportion of 4-amino-quinaldine is heated for atleast 25 hours with an alkyl halide containing 7 to 18 carbon atoms.

68034. May & Baker Limited. Improvements in or relating to pharmaceutical compositions. (16th June 1958). Accepted on 22nd September 1960.

Comprising at least one 4-halogeno-piperidine derivative in association with a pharmaceutical carrier.

68264. Union Carbide Corporation. Process of and apparatus for low-temperature separation of air. Accepted on 5th October 1960.

Comprises the steps of passing atleast a major part of the inlet air stream to the highest pressure rectification stage for partial separation to form a first nitrogen rich liquid and a first oxygen-enriched liquid.

68742. Aircraft Furnishing Limited. Improvements in and relating to aircraft passenger-seat structures. Accepted on 5th October 1960.

In which spaced side plates or standards are connected by a tubular or box-sectioned cross-bar or cross bars of relatively large cross-section to provide adequate stiffness without unnecessary weight.

69022. Wisconsin Alumni Research Foundation. Process for the microbiological production of chemical compounds. Accepted on 1st October 1960.

Comprising separating the spores from the vegetative growth material, and carrying out the microbiological production with the spores in a vegetative growth material free and nutrient free aqueous medium.

69123. Union Carbide Corporation. Method of preparing concentrated fruit juice. Accepted on 5th October 1960.

Subjecting the additional fresh fruit juice to an inert gas stripping operation to remove oxygen from such fresh juice prior to its addition and blending to the evaporated juice and subjecting the resulting blended juice to a flow of inert gas to prevent oxygen contamination.

69190. Swindon Tool Company Limited. Improvements in or relating to buffers for railway vehicles. (6th October 1958). Accepted on 1st October 1960.

Provided a shock-absorbing mechanism incorporating means for maintaining the buffer head in a fully extended position under normal conditions.

69191. Swindon Tool Company Limited. Improvements in or relating to buffers for railway vehicles. (6th October 1958). Accepted on 1st October 1960.

Comprising mechanical cushioning means combined with a hydraulic shock absorbing mechanism.

69200. Indian Telephone Industries Limited. Improvements in telephone ringers. Accepted on 3rd October 1960.

Comprising a four polar electromagnetic assembly with a bar type permanent magnet and two pole pieces one coil wound on the assembly for energisation by ringing current and a pivoted, on hinged armature vibrating in the airgap of the pole pieces.

69228. Dicht A. G. Improvements in or relating to devices for withdrawing the driving tubes used for casting concrete posts in situ. Accepted on 5th October 1960.

In which the withdrawing cable destined to have one end attached on the driven-in end of the driving tube to be extracted passes over the pulleys of a first reversed block and tackle horizontally mounted on a pile driver carriage.

69323. Badische Anilin- & Soda-Fabrik Aktiengesellschaft. Production of expandable granular materials from thermoplastic synthetic substances. Accepted on 5th October 1960.

Wherein (a) water which contains a dispersing agent for organic liquids immiscible with water, (b) a solution of a synthetic thermoplastic substance in a low boiling solvent.

69373. Union Carbide Corporation. Improved arc torch. (9th April 1959). Accepted on 26th September 1960.

Including a non-consumable stick electrode arranged within a nozzle comprising complementary electrode means, the latter comprising one or more preferential electrodes.

69375. Dunlop Rubber Company Limited. Improvements in or relating to belting. Accepted on 5th October 1960.

Comprising at least one ply of textile material having adjacent atleast one of its surface a sheet of elastomeric material incorporating textile flock orientated so that at least the majority of its fibres extend laterally with respect to the belting.

Amendment Proceedings

(1)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911 that Dr. Karl Thomae G.m.b.H. a Body corporate organised and existing under the laws of the Federal Republic of Germany, of Biberach an der Riss, Federal Republic of Germany, seek leave to amend the description and claims in the specification in respect of Patent application No. 65143. Any person desirous of opposing the application for amendment should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (form 6 of the Indian Patents and Designs Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta 17. The proposed amendment may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

(2)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that Dr. Karl Thomae, G.m.b.H. a Body corporate organised under the laws of the Federal Republic of Germany, of Biberach-an-der-Riss, Federal Republic of Germany seek leave to amend the claims in the specification in respect of Patent application No. 66464. Any person desirous of opposing the application for amendment should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (form 6 of the Indian Patents and Designs Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta 17. The proposed amendment may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

(3)

The amendment proposed by St. Anne's Board Mill Company Limited in respect of Patent application No. 50059 an advertised in the Gazette of India Part III, Section 2 dated the 4th June 1960 has been allowed.

(4)

The amendment proposed by Sandoz Ltd., in respect of Patent application No. 64950 as advertised in the Gazette of India Part III, Section 2 dated the 4th June 1960 has been allowed.

Application for Compulsory Licence Under Section 22

The application for licence filed on 29th June 1959 of the Indian Patents and Designs Act 1911 made by Swissco Sales Corporation 29A Balaram Street, Grant Road, Bombay 7, in respect of Patent No. 47165 and notified in the Gazette of India, Part III, Section 2 dated the 3rd October 1959 and opposed by (1) Messrs. Rodi & Wienenberger Aktiengesellschaft on 15th January 1960 and (2) Madhukar Sadashiv Wadke on 19th January 1960 has been treated as withdrawn by the order dated 3rd October 1960 of the Joint Controller of Patents and Designs.
